ROLY

NEW CREATION FOR BETTER SPACE VALUE

The value of products made with Bestuhl's technology and expertise is completed when it is expressed in the beauty of the space and the comfort of the user.

Experience a beautiful and comfortable space with the variety of designs, colors, and textures offered by Bestuhl.

LIFE IS MOVEMENT

We spend a lot of time sitting in chairs, looking at the monitor, focusing on our work, talking to the person next to us, and sometimes getting lost in thought. Come to think of it, we need a lot of different movements on the chair. However, conventional chairs say that correct posture is what matters more than movement.

So, Bestuhl proposes "ROLY", a new standard ergonomic chair. 3D motion responds to various movements of our body and ROLY's unique functions support different postures, helping us reduce fatigue and focus more on our work.

BODY-LIKE DESIGN

ROLY's design that resembles the human body minimizes pressure on the back and allows free movement, granting comfort to your body for a wide range of activities. In addition, the flowing curves that run from the backrest to the lower tilt further enhance the atmosphere of any space like an art object.

AWAKENS YOUR SENSES

3D MOTION

The 3D motion of the backrest moving from side to side according to your movements provides natural and comfortable support while you are seated. The ROLY chair's flexible seat movement, along with the backrest, helps you alleviate muscle tension and stimulates metabolism, contributing to a healthier work experience in the office.

Kinetic moving

Depending on the user's movements, the backrest moves in a range of 4 degrees left and right to support the body naturally and comfortably.

Flexible seat

The seat can adjust in accordance with the movements that occur after sitting, effectively alleviating pressure on the thighs.

DELICATE AND FLEXIBLE MOVING TWIST SYSTEM

ROLY's backrest and lumbar support move flexibly according to the user's movements, providing delicate support that captures even the slightest shifts in the chair.

Flexible lumbar pad

The adjustable depth (10 mm) fits your body shape, and the 4D pivot and flexible lumbar pad support the waist according to your movements, relieving pressure.

Lumbar pad height adjustment

The height of the lumbar pad (60 mm) is easily adjustable to suit your posture and body shape.

OPTIMIZED FOR MOBILE DEVICE USING ARM & SEAT

We provide a variety of solutions tailored to your device's use and business purpose. ROLY's dual-rotating armrest supports an optimized posture for using various IT devices such as tablet computers and mobile phones.

4D moving armrest

In addition to height and front/back adjustments, the dual swivel function allows you to maintain an optimized posture for using mobile devices.

Seat angle adjustment

The tilt of the seat is adjusted downward, allowing you to maintain the correct posture according to the concentration mode of work.

Dual rotation headrest

In addition to height adjustment, dual rotation is possible to accommodate work and rest, optimally supporting the user's desired posture. (height adjustment 60 mm / pad angle 10° / maximum angle 10°).

AUTOMATIC WEIGHT RESPONDING KINETIC TILT

The balance tilt mechanism automatically adjusts the intensity of the backrest recline according to the user's weight, making it easy to use without any additional operation, and minimizes strain on your body with optimal strength setting and synchronized tilting.

Easy-to-operate wire system

The operation button with a wire system is located at the bottom of the seat for easy adjustments, and the pictogram on the button allows easy recognition.

Seat depth adjustment

The depth (front and rear) of the seat is adjustable to fit the user's body shape.

Multi-limited tilting

The convenient lever type allows for three levels of angle adjustment, offering a comfortable seat regardless of body shape and purpose.

Dynamic support sponge

An ergonomic sponge that distributes body pressure evenly ensures a comfortable seating experience.

ITEM LIST

P1G110L

702*572*1122
(Sitting Height : 428 ~ 504)

Headrest Height / Dual Angle Adjustment
